PUBLISHED WEEKLY IN CANAL POINT BY PAUL RARDIN

CIRCULATING THROUGHOUT THE VAST AGRICULTURAL AREA OF PALM BEACH COUNTY

SEVENTH GRADE IS RETURNED TO CANAL POINT

Voters Of Pahokee Must Re-register Under New Law

An ordinance requiring the re-registration of all voters within the city limits of Pahokee was passed by the City Council on first reading at a meeting in the city hall Monday night.

The council called for bids for repairing the subflooring at the city hall and voted to have the new water tower at Pelican Lake sandblasted and painted at a cost not to exceed \$500.

Upon suggestion by John Sutterfield a resolution was passed commending Manning I. Keen and Melvin Spooner, Pahokee delegates to the recent Lions International Convention in Chicago, Ill. for the excellent publicity they gave this area enroute to Chicago and while at the convention.

Councilman R. B. Simonson was appointed a committee of one to contact R. O. Crosby and Duncan Padgett for a right-of-way on land owned by them for the purpose of providing drainage facilities in colored town.

Police Chief Leon Guthrie was instructed to strictly enforce the city law requiring a license tag for all dogs within the city limits, the license fee being \$1 for male dogs and \$2 for females. Chief Guthrie was also instructed to collect without exception all delinquent occupational license fees.

Pahokee Lions Hear The Harmony Four

The Harmony Four, a quartet of Pahokee youth including Millard Stanley, Chandler McIlwain and Charles and Willard McCurdy, entertained with a program of songs at the Tuesday luncheon meeting of the Pahokee Lions Club. The quartet, which won third place in the finals of Malcolm Miller's recent Talent Show, was accompanied at the piano by Miss Rita Fay Hurt.

John Sutterfield, chairman of the publicity committee, read a resolution drawn up by City Attorney Ralph Johnson and passed by the City Council Monday Night, commending Manning I. Keen and Melvin Spooner, club delegates, for the outstanding publicity which they gave to Pahokee during their recent trip to the Lions International Convention in Chicago.

A spirited "Chinese auction" conducted at the luncheon raised \$80, this sum to go toward payment of fees to the tennis professional who is giving free lessons in tennis at the courts in the city park every Thursday afternoon under the sponsorship of the Lions Club.

President Thomas Baldwin called for a special meeting of the board of directors to be held in the Lions Hall Friday, Aug. 18, at 8 p. m.

It's Vacation Time Again At Everglades News

Twelve more months have slipped away and it is vacation time here at The Everglades News office. So, this morning we turned the key on the door lock and will re-open on the 30th of the month.

A little journalistic ledger-maintenance will bring forth next week's paper right on time. You can look for it in the mail on Friday morning as usual—while we are on the bank of our favorite creek making an effort to outwit a few members of the finny tribe.

A few days rest out of the 365 in the year go a long way toward making the remainder of the year easy to take. So, until the 30th of the month, take it easy and we'll be seen'ly you.

Flood Control To Be Discussed In WSWN Talk Friday

A speech of interest and importance will be broadcast over WSWN at 6:15 Friday afternoon, according to officials of the Central and Southern Florida Flood Control District. The speech will be made by the chairman of the district, Joe Earmon of Vero Beach, and will deal with ideas, of the district officials for execution of plans which will, in the future, bring about a workable flood control plan. Every person in this area will be interested in the speech and should tune in USWN at 6:15 p. m. Friday.

Communication

August 8, 1950

Mr. Paul Rardin
Editor
Everglades News
Canal Point, Florida
Dear Mr. Rardin:

We should like to express our sincere appreciation for your assistance in making the 1950 Mass Chest X-ray Survey a success.

We are especially grateful for the promotional articles which appeared in your paper.

Thank you again for the outstanding service you have rendered your community and your country.

Lake Lytal, President
Mrs. Ruth L. Shepard
Executive Secretary.

MRS. C. G. COBURN BREAKS WRIST, SPRAINS ANKLE

Mrs. C. G. Coburn of Fort Mayaca suffered severe injuries this week when she fell out her back door and broke a wrist and sprained an ankle. She is recuperating nicely at her home.

Clara Barton, founder of the American Red Cross, died at the age of ninety-one.

Shortage Seen So County Plans To Buy Equipment

Fear of materials scarcities as a result of the Korean struggle and the country's trend toward mobilization was indicated in requests made by two department heads to the county commission Monday.

County Engineer J. M. Boyd told the board that because scarcities were anticipated he had made a survey of county owned construction equipment with a view to having repairs made, to disposing of equipment not needed and to trade in on new equipment those pieces on which maintenance was running high. He also asked permission to trade in six county trucks on new machines.

Circuit Court Clerk J. Alex Arnette said that he had received information from companies manufacturing photostatic equipment that quick delivery could not be expected and that prices had already gone up by eight per cent. Arnette urged immediate advertising of bids on about \$12,000 worth of such equipment.

In both cases the commission authorized the advertising for bids, conditional that payment will come out of the new budget which becomes effective Oct. 1.

Band School Has Successful Term

The summer school for band students at the Pahokee school came to a close Friday after eight weeks of successful operation.

The school was directed by Robert O. Lampl, local bandmaster, under the sponsorship of the County Board of Public Instruction in cooperation with the State Department of Education. It had an enrollment of 90 students with an average daily attendance of 25.

There are now 51 students eligible to play in the Pahokee High School Band and several others will be ready to join the band within the next few weeks when they have completed their elementary training, according to Mr. Lampl. A few band instruments are still available for students who plan to start instruction when school opens, he said.

Construction Done On New Patrol Office

Construction work is finished on the new Florida Highway Patrol office in Pahokee and State Road Department employees are busy beautifying the plot of ground on which the office is located.

Production of food cans has increased 10 times in the last 50 years, from about two billion at the turn of the century to approximately 20 billion in 1949, according to the American Can Company.

Claude Williams Will Be The New Principal; Patrons Hope For 8th Grade Next Year

Scruggs Children Entertain C. P. Lions

Three of the talented children of Mr. and Mrs. Arnold Scruggs presented a program of music and songs at the dinner meeting of the Canal Point Lions Club Monday night.

It was announced that the Canal Point Lions are sending a local boy, who was turned down by the Navy because of poor eyesight, to an eye specialist in Tampa for examination and treatment. President Boyd Vorhees presided.

Commerce Body Is Plan In Pahokee

All local citizens interested in organizing a Chamber of Commerce are invited to attend an open meeting in the Pahokee city hall Monday, Aug. 21, at 8 p. m., with Mayor Lewis Friend presiding.

Mayor Friend is calling the meeting upon request by the chamber of commerce committee of the Pahokee Lions Club. All civic and fraternal groups, business firms and individuals are asked to either send representatives or be present in person to take part in the proceedings.

After the chamber is formed at the Aug. 21 meeting, a discussion will be held on projects for the immediate future such as the rebuilding of the dock at the Pahokee waterfront, a housing program for colored residents and so on.

In calling for the meeting Mayor Friend said, "This is going to be a voluntary, non-paying chamber. We don't want anyone to come to the meeting unless they really want to work."

Closing Program For Vacation School

The Commencement Program of the Vacation Bible School of Canal Point Baptist Church will be held at the church on Sunday evening August 27 at 8:00 o'clock. The families and friends of our children are urged to be present for this attractive, inspiring and worshipful program.

BOARD MEETING

An executive board meeting of the Pahokee First Methodist Woman's Society of Christian Service will be held Monday, Aug. 21, at 2:30 p. m., at the home of Mrs. F. Hurt.

Human beings, like chickens, thrive best when they have to scratch for what they get.—Democracy in Action.

After being a minus quantity in the Canal Point school for many years, the seventh grade will be returned here this fall from Pahokee. The return of this grade is the result of a concerted effort on the part of patrons who also hope that the eighth grade can be returned when school opens a year from now.

Whatever the cause or reason for removal of the two grades from Canal Point to Pahokee, patrons in the Canal Point area want them back. Return of the seventh grade for opening of school on Sept. 5 gives high hope to patrons that the eighth will be returned next year.

Claude Williams has been named principal of the local school. Mrs. Wilma Lence had been principal for many years during the time only six grades were being taught here. She resigned as principal last year but the school board prevailed upon her to serve until someone else was found to take her place.

The Canal Point school building has plenty of space available for the returning grade and there will be plenty of room for the eighth grade next year. The school building is in a good state of repair. The campus is large and youngsters have plenty of room for games and other entertainment.

Mr. Williams comes here from Clewiston. His wife will be principal of Lake Harbor school, according to County Supt. Howell Watkins who was instrumental in bringing about the change that returned the seventh grade to Canal Point.

Revival Planned Pahokee Baptists

Plans for a revival to be held at the Pahokee First Baptist Church, Aug. 20-27, have been announced by Rev. Hoke H. Shirley, pastor.

Guest evangelist will be Rev. Lee Nichols, pastor of the First Baptist Church in Daytona Beach. Rev. Nichols is expected to arrive for his first service Monday night, Aug. 21. Rev. Shirley will deliver the sermons at both the morning and evening services during the first day of the revival Monday, Aug. 21. Special music will be furnished by the Adult and Youth Choruses.

Mrs. Ellen Whiteside, chairman of the Florida Children's Commission, urges all groups and individuals interested in child welfare and legislation affecting children, to compile their findings and suggestions for presentation at the White House Conference in Washington, next December. The Conference meets only once every decade.

News Notes From State Capital

TALLAHASSEE — Acting on newspaper reports, Governor Warren suspended Sheriff H. Lisle Enzor of Okaloosa (Crestview) County for permitting gambling, but declined to suspend Sheriff P. A. Mero of Seminole (Sanford) County after a hearing. He also dismissed charges against Constable W. A. Lewis, in whose Seminole County district was located a negro gambling casino. The Governor named Perrin C. Campbell, Crestview attorney and nominee for the legislature, to be sheriff until the spring meeting of the state senate, which must either confirm or reject the suspension. After a previous hearing, Warren suspended Walter Clark as sheriff of Broward County on the basis of his admission before a U. S. senate committee that he was one of the partners in a business dealing in bolita and slot machines.

TALLAHASSEE — Barbers of Florida met here this week to form the Florida Barber Association, representing a possible 5,000 barbers in this state. Attorney General Richard W. Ervin and State Senator Leroy Collins welcomed the members of the new association, and Tallahassee barbers were hosts after the business session.

TALLAHASSEE — Negro students can take special courses at white universities in Florida while continuing to be enrolled at Florida A. and M. College for Negroes; the Florida Supreme Court has ruled. It declined to order white universities opened to five negroes who had attacked the state's segregation rule, asking instruction in such specialties as law, pharmacy, chemical engineering and graduate agriculture, not offered at A. and M. but in Florida State University or the University of Florida. The state must now either provide "substantially equal" facilities at A. and M. or open classes in the other state schools to negro students.

TALLAHASSEE — Attorney General Richard W. Ervin this week gave his opinion on the following general subjects:

SPEED — The state road department or the county may establish low speed zones in residential areas, to be enforced by the sheriff.

TEACHER — School board is under no obligation to reinstate teacher released to have a baby.

FOOTBALL — Florida A. and M. College by long use has acquired legal right to name of its annual football classic, "Orange Blossom Classic."

HOUSING — Low rent housing project of city is not subject to pay state hotel construction permit and license.

DRIVING — Prisoner confined for drunken driving may not operate prison vehicle without driver's license.

INSURANCE — County may use public funds to pay workman's compensation premiums for county road employees.

INQUEST — Suspected killer cannot be forced to testify as "eye witness" at inquest.

AIRCRAFT — Advance funds paid as registration by owners of aircraft are held as trust funds for future legislative action.

SIDEWALKS — Cigarette tax money may be used by city to repair sidewalks.

CRIME — Fee for criminal investigation by constable cannot legally be paid without approval by the court.

TALLAHASSEE — Discharge of 41 wildlife officers and establishment of a chain of command for the 157 officers remaining was effective August 1, according to Director Coleman Newman of the state game and fresh water fish commission. Speedier enforcement methods, tightening up of control of the actions of the officers and establishment of a definite pay schedule are prominent features of the new program.

TALLAHASSEE — A safety hearing on clearance rules for Florida railroads is scheduled for August 8 to 11 in Tampa by the Florida Railroad and Public Utilities Commission. Subjects covered involve the amount of clearance between railroad cars and station and other fixtures, the loading of open to cars and the maintenance of switches. The commission will determine whether proposed rules on these subjects will then be adopted.

TALLAHASSEE — The Florida Railroad and Public Utilities Com-

mission will open hearings in St. Petersburg August 11 to determine whether to Railway Express Agency should furnish pick-up and delivery service to the Great Gulf Beaches of St. Petersburg. These include Indian Rocks, Redington Beach, Madeira Beach, Boca Ciega, Treasure Island, Don Cesar Place, Bella Vista Beach, Pass-A-Grille Beach and St. Petersburg Beach.

TALLAHASSEE — Cities and communities along the Cross-State Highway from Cocoa and Indian River City on the eastern terminus to Brooksville and Weekiwahe Springs on the west can get set for the celebration of the completion of the road paving work early in 1952. Alfred A. McKethan, chairman of the State Road Department, recently announced.

McKethan said that funds for the completion of all unfinished projects along the highway will be included in the 1951 budget and barring unforeseen obstacles, the Central Florida dream road connecting the Atlantic and the Gulf of Mexico will be completed early in 1952.

The State Cabinet has released \$225,750 to the Board of Control for Florida's share in cost of the 1950-51 regional education program, providing scholarships in medicine, dentistry and veterinary medicine for both White and Colored students who, at present, must go out of state to obtain these vocational specialties.

For jointly leading a group of U. S. Marines and soldiers through the city gates of Mexico City in advance of the storming forces during the Mexican War, Lt. U. S. Grant was commended for bravery by Maj. Robert E. Lee.

POLIO PRECAUTIONS

RECOMMENDED BY
THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

WHEN POLIO IS AROUND, the National Foundation for Infantile Paralysis recommends these simple precautions: Keep children with their own friends and away from people they have not been with right along. Don't become exhausted through work or hard play. Don't stay too long in cold water or sit around in wet clothes. And always wash hands before eating. Watch for feverishness, sore throat, headache, upset stomach or sore muscles. They may—or may not—mean polio. Call your doctor and then, if help is needed contact the National Foundation Center in your area.

PATRONIZE THE ADVERTISERS

"WILL YOU TAKE 5 MINUTES TO SAVE \$1000?"

Yes, 5 minutes is all we need to show you how you could pay \$1,000 more and not get all the extra room... ease of handling... and famous ruggedness Dodge gives you!

NOW IS THE TIME TO TRADE

— your present car may never again be worth what we will give you!

Just 5 minutes behind the wheel of today's big Dodge and you'll discover roominess far costlier cars can't match... head room, leg room, shoulder room that lets you ride easier, more comfortably, mile after mile. Drive the new Dodge today!

You'll get handling and driving ease that you'll want to make your own for keeps.

You'll feel the flashing power of the big "Get-Away" Engine... the silken smoothness of Fluid Drive. And you'll sense the ruggedness... the famous

dependability, that belongs to Dodge and Dodge alone.

WE ARE IN STEP WITH THE TIMES

It is no small task to record each week the happenings of any community. We here at The Everglades News are happy that our assignments bring us face to face with hundreds of folks of our community each week. We strive to KEEP IN STEP with what is going on here in this vast agricultural area on the eastern shore of Lake Okeechobee. It gives us a great deal of pleasure to record for you weekly (and for posterity) the happenings of a growing section of Florida. Future generations will thrill when they read of the pioneering efforts of you and your loved ones in establishing a great agricultural empire.

KEEPING IN STEP with the times means that we must be on our toes day in and day out—making an earnest effort to record those things which are interesting, historical, progressive and at times amusing. All such happenings go toward making up a worthwhile and happy community where living is just a mite better than in thousands of other places in America—where your neighbor's smile is just a mite friendlier than is witnessed elsewhere in this great land of ours.

=====

Here In Our Newspaper
Office We've Spent.....

25 Years Doing One Thing Well

Each week for more than a quarter of a century this Newspaper has reached its readers each Friday morning with full and complete news coverage of the Lake Okeechobee Farm Area. Bringing out The Everglades News each week—on schedule—has grown to be a habit with those of us who produce it. Not once during the 25 years of its existence has this newspaper missed a publication day. Through floods, hurricanes and other adverse antics of nature we have managed to make the deadline. It has been no small accomplishment.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

Quick action on two bids received for radio equipment for the sheriff's department was assured today following tabulations made at the regular meeting of the county commission Monday.

At the meeting, at which Vice-Chairman Paul Rardin, of Canal Point, presided, Commissioners Kenneth Foster, of District 1, and John Prince, of Lake Worth, said that the sheriff's department—which is to be cut off the Florida Highway Patrol frequency—is in a hurry to get new equipment installed.

On motion of Commissioner C. Y. Byrd, of Delray Beach, County Engineer J. M. Boyd and Sheriff John F. Kirk were directed to make a check of the bids received and to report back at the next meeting.

The two bids received were from Motorola and the General Electric Co. E. offered equipment for a control station, antennae and ten sets for sheriff's cars at \$6,350 for the 30-watt sets and adding \$125 for the 60-watt type. Motorola bid \$6,970 for the same pieces of equipment and offered \$550 for trade in of old equipment.

Commissioner Prince told the board that the chambers of commerce of Palm Beach and West Palm Beach were readying a good program for dedication of the Southern Blvd. bridge on Labor Day, and Vice-Chairman Rardin read a letter from Merrill Barber, Vero Beach, state road department member in this area, accepting an invitation to attend the ceremonies with Alfred A. McKethan, this chairman, who will be the principal speaker.

Commissioner Byrd reported the Rubin construction company had started resurfacing of U. S. 1 south from Boynton Beach toward Delray and said that with good weather the work will progress rapidly.

Commissioner Byrd was granted permission by the board to attend a meeting of the State Road Board in Tallahassee, Sept. 4, 5 and 6 with County Engineer J. M. Boyd, in connection with the possible letting of a contract for the Delray Atlantic ave. bridge.

Vice-Chairman Rardin said that efforts are being made to get the 40-Mile Bend-Loxahatchee detour in good shape, following a rain

which did heavy damage. He said some repairs have been already made but more rain had hampered this latter work.

The commission received resolutions from the Jupiter Inlet district setting the millage for the year at 6 mills, or one and one-half mills higher than last year, and from the school board, setting the general millage at 15, the same as last year.

Some requests for funds from various organizations were deferred for later action and consideration after the new budget becomes effective.

Regular monthly reports were received from the county convicts' camp and the county health department. The latter report said a checkup on fresh water wells in the county indicated many were not safe for drinking or were contaminated in various degrees.

Cinematic Chatter

By Malcolm Millar

The cowboy is today's hero for the "young fryers," and every youngster wants to own a cowboy suit, boots, ten gallon hat and a pair of six-shooters. Some "oldsters" are alarmed at this hero worship, which they claim leads to the making of gangsters and ruffians. These folks are telling us that the movies are ruining the younger generation and, they claim, they never had such scandalous times when they were youngsters. Today the boys are worshippers of "Rocky Lane," "Gene Autry," "John Wayne," "Hopalong Cassidy," "Roy Rogers" and "Whip Wilson." These fellows are to the youngsters the highest type of manhood. They never miss with their six-shooters, they are never beaten in a fight, they can ride like the wind and do very little romancing. In short it is the ambition of the average young fellow of today to become a composite of all these cowboy heroes. In the days of the "oldsters" of this age there were no movies. There was the "ten-twenty and thirty" melodrama, with the blonde-haired hero, barrel chested and invincible. He always won his fights too. He always arrived in the nick of time and saved the gal just when the nasty villain was about to toss her to the sharks, and he was our hero.

Among the cowboy heroes were "Dead Eye Dick," "Buffalo Bill Cody," William F. "The Westerner" and other well known Book and stage stars of that era and we kids were a composite of these great "he-men." The "oldsters" of my age were saying the same thing they are saying today. "The theatre is ruining this generation." The theatre, dear reader, has been one of the greatest educational mediums of all time, and the advent of the movies has been the greatest educational medium of all the branches of theatre. The heroes of stage and screen have never changed, they are always honest, men, championing right and erasing evil in all forms. Along this trend of thought comes Broderick Crawford who certainly brings home the lesson that "the wages of sin is death" in his presentation of "All the King's Men," which is to be shown at the Prince Theatre, Sunday-Monday. Joanne Dru is his leading lady. John Ireland, John Derek and Mercedes McCambridge lend excellent supporting roles. This is the picture Crawford won the Academy Award for best actor. Miss Dru received her Award for the best supporting actress and Robert Rossen won his for the best direction. The picture got the Award as the best picture. You must see this one! See you at the movies—Mal.

"Don't worry" might be more appropriate if we added the word, "others."

Traffic Signs Are There For Purpose

"You can't shrug off traffic signs!" Safety Director H. N. Kirkman told Florida's drivers today as the Florida Highway Patrol's annual program of traffic safety education moved into its 10th day.

"You can bet your bottom dollar," he said, "that every traffic sign and signal you pass on the highway has a definite reason for being where it is. The hospitals and cemeteries are full of ex-drivers who shrugged off some sign on the mistaken notion that whoever put it there didn't know what he was doing."

A great many intersections having "Stop" signs are deceptively safe-looking, but have a bloody history behind them that necessitated the original installation of these controls, the Florida Highway Patrol reports.

In the same way, each speed limit and warning sign is a silent testimonial to days and weeks of investigation and testing by traffic experts in their efforts to determine at what speed, and under what conditions, the road may be safely traveled. Entering into this are studies of the road's surface; what effects various weather conditions have on it; topography of the country through which the road travels; principles of inertia; and other factors that seldom occur to the average driver.

"No traffic sign or signal," Kirkman said, "is thrown up at random simply because it is found lying around in the sign shop."

The Florida Highway Patrol, in its efforts, this month, to impress motorists with the importance of obeying signs and signals, is co-operating with the National Safety Council.

Rodenticide To Rid Country Of Rats

TAMPA—Rats, mice and other rodents are among the most consistent destroyers Floridians have to contend with. Each year they destroy hundreds of thousands of dollars worth of grain and food products. Worse, they are a constant danger to human life as carriers of a number of dangerous diseases.

Sanitary officers and public officials have waged war against these troublesome and dangerous pests and some communities have engaged the services of professional exterminators to rid themselves of rats.

In view of this fact, it is good news indeed that comes from the University of Wisconsin Alumni Research Foundation which reports the discovery of a new and highly effective rodenticide known as "Warfarin," developed in the laboratories of Professor Karl Paul Link.

This amazing new rodent killer gives promise of wiping out colonies of rats and mice completely and permanently and is now available to the public and to rodenticide manufacturers, reports Warf Ross, General Manager of the Wisconsin Alumni Research Foundation.

Warfarin's great value and effectiveness has been established through hundreds of field tests that have been carried out in every state in the union, Canada, Hawaii, and several foreign countries. City and state health departments, farmers, housewives and professional exterminators have demonstrated the outstanding effectiveness of the new poison.

Many reports showed complete elimination of rats and mice where all other poisons failed, the Foundation reported.

Large scale testing programs on Warfarin rodenticides were conducted jointly by Wisconsin Alumni Research Foundation and S. B. Penick and Co., and R. J. Prentiss and Co., Inc., both of New York City, in cooperation with the Production and Marketing Administration of the U. S. Department

of Agriculture, the U. S. Fish and Wildlife Service, the U. S. Public Health Service and the National Pest Control Association.

Warfarin will, in most cases completely wipe out a rat or mouse population and then prevent the rebuilding of the population by killing newcomers as they arrive, the Foundation found.

Other poisons kill so rapidly that dead and dying rats serve as a warning to the rest of the colony. Tasteless and odorless, Warfarin is slow acting and relies upon the cumulative effect of small quantities consumed over a period of days. Other rats are not warned of the poison, there is no dash for water, there are no convulsions. Poisoned rats show no immediate effects. They eventually become drowsy and begin to walk with a slow and measured gait finally without suffering they die of internal hemorrhage.

Riviera Beach To Get New Bank Soon

A charter for the "Riviera Beach Bank" was granted August 9th by Clarence M. Gay, Comptroller, State of Florida, and by the Federal Deposit Insurance Corporation, Washington, D. C. The active officers will be Harry V. Nye, President, and Roy Cuttrell, Vice President and Cashier. Mr. Nye is now Vice President of the First National Bank of Palm Beach, while Mr. Cuttrell is Vice President of the First National Bank in Lake Worth. The charter application indicates capital \$100,000.00, surplus \$50,000.00, undivided profits \$25,000.00.

Directors are: Byron L. Ramsing of Palm Beach, a Director and Vice President of the Palm Beach Bank and Chairman of the Board of the Lake Worth Bank; Robert F. Cromwell, attorney, Riviera Beach; E. J. Thompson of Thompson's Hardware, Riviera Beach; L. D. Mullis, Jr., owner of Riviera Beach Lumber and Supply Company; Wiley R. Reynolds, Jr. and John A. Boardman, President and Executive Vice President of the First National Bank in Palm Beach, and Mr. Nye.

It is anticipated that the bank will open early in 1951. Simplicity and informality will be the keynote of the new building, now in the blue print stage, and will have two-drive-in windows and be surrounded by a large parking area on property recently acquired for this purpose.

New Construction Runs High In Fla.

The value of new construction completed in Florida totaled \$506,800,000 last year, the Florida State Chamber of Commerce reported yesterday.

Eighty-four per cent (\$426,800,000) of the total expenditure was financed with private funds. The largest single item, \$302,500,000 went into residential construction.

This week's business review of the State Chamber's research and industrial division lists other private expenditures as \$74,500,000 for structures for business and industry; \$44,700,000 for electric and other utilities and \$4,900,000 for farm building.

Expenditure of public monies for construction in Florida last year accounted for \$80,200,000 of the completed construction total. This figure was made up of \$28,800,000 for various types of public buildings; \$23,500,000 for highways; \$9,000,000 for water and related systems and \$18,900,000 for such items as public residential building, conservation and development and military construction.

It was emphasized that these figures cover completed work only and do not include construction begun in 1949 and continuing on into 1950.

Subsidiary Air Line Railway has announced orders for 66 diesel locomotives and 1,225 freight cars, at an estimated total cost of around \$16,100,000, with delivery scheduled for February, 1951.

AND ALINEMENT SPECIALIST.

Try this on your stereoscope!

WHEN THIS "VIEWER" was in the parlor, folks used to look at pictures like these.

They'd spend many an hour gazing wistfully at scenes of places they'd like to visit, things they'd like to do.

But, today, there's an invention that beats those stereoscopic pictures all hollow. No—it isn't television.

It's the Payroll Savings Plan—an automatic

method of saving that all but puts you on that liner and says "bon voyage."

So simple, so painless, so sure—the Payroll Savings Plan sets aside a small part of your earnings each and every pay day, puts it in United States Savings Bonds.

And those bonds grow and GROW. In ten short years they pay you back \$4 for every \$3 you put in today.

A self-fattening investment—guaranteed by Uncle Sam—that will let you do things for your family and for yourself that you could never do without such a convenient plan.

And, if you're not on a payroll, there's the equally convenient, equally profitable Bond-A-Month Plan at your bank.

No matter how you look at them, U. S. Savings Bonds help to picture a bright, happy future!

Automatic saving is sure saving—U.S. Savings Bonds

Christian Science Society

CHURCH OF CHRIST, SCIENTIST

"MIND" is the subject of the Lesson-Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, August 20.

The Golden Text is: "Blessed be the name of God for ever and ever: for wisdom and might are his: . . . he giveth wisdom unto the wise, and knowledge to them that know understanding" (Dan. 2: 20, 21).

Among the citations which comprise the Lesson-Sermon is the following, from the Bible: "Acquaint now thyself with him, and be at peace: thereby good shall come unto thee" (Job 22: 21).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The exterminator of error is the great truth that God, good, is the only Mind, and that the supposititious opposite of infinite Mind—called devil or evil—is not Mind, is not Truth, but error, without intelligence or reality. There can be but one Mind, because there is but one God; and is mortals claimed no other Mind and accepted no other, sin would be unknown. We can have but one Mind, if that one in infinite" (469; 13-21 The).

to the school, call 3253 before

the date for classes to begin.

Three Circles Meet On Monday, Aug. 21

Three circles of the Pahokee First Methodist Woman's Society of Christian Service will meet on Monday, Aug. 21.

The Miriam Circle will meet at the home of Mrs. Melvin Spooner at 8 p. m., with Mrs. Adaline Stuckey assisting Mrs. Spooner as co-hostess.

The Gertrude Shirley Circle will meet in the recreation room of the church at 8 p. m. Following a brief business session, members will enjoy a social hour of fellowship and entertainment.

Mrs. R. F. Hurt will be hostess to members of the Margery Lair Circle at a meeting at her home in the afternoon, starting at 3:30 o'clock.

Modern fire-fighting equipment, which would be the pride of any city, is on year round duty at Hialeah. The truck was the first to purchase a standard fire engine as part of its protection system.

Motor Scooter Is New Aid For Cupid

Now motor scooters come in for their share of credit when it comes to being a first assistant of cupid. A Canal Point scooter—used ordinarily for newspaper delivery in these parts—played a much more romantic part last week when its owner—Trevette Weeks—perched his bride-to-be—Miss Joan Shepherd of Pahokee on the scooter and sought the fast becoming famous green of Folkston in the neighboring state of Georgia. The nuptial knot was tied by proper officials and the young and happy couple scooted back into the land of sunshine and flowers for a honeymoon.

Abraham Lincoln was six feet, four inches tall.

"Look-Behinders" On Herlong Peeve List

WASHINGTON—Florida's Congressman Syd Herlong, of Leesburg, has placed two new types of people on his "pet peeve" list: (1) "looker-behinders," and (2) "get-mine-firsters." The LB's are the every-day-in-the-week quarter-back club, composed of those who can tell you right off the bat who got us into the Korean imbroglio and the GMP membership is composed of politicians who think first of the November elections, and then act—accordingly, of course! Many who have been up on Capitol Hill a long, long time think the outspoken Syd has not exaggerated when he inferred that both clubs have sizeable numbers and well figures on their rolls.

Iceland has the oldest parliamentary body in the world.

Come to Church

The churches of the Everglades extend a warm welcome to every person to attend church on Sunday. You'll get a deep satisfaction out of attending the church of your choice. You'll personally enjoy the wonderful messages of faith which are in store for you during this good year ahead. Today, make a resolution that one hour out of the week's 168 will be devoted to church services. Can you do less? Watch the columns of The Everglades News for church announcements weekly. The Lake Region is blessed with a group of fine churches. Your attendance will make the work of these churches more successful.

Churches Of The Glades

(This message sponsored and space made available by Paul Rardin).

Mind if we read your palm?

These long mixed lines show it is hard for this person to keep money.

These lines show riches brought about by one's own efforts.

Loose flesh at the base of the thumb denotes a person who plans carefully.

WE'LL BET that this hand belongs to a person who invests regularly in U. S. Savings Bonds.

It is the hand of a person who plans for the future wisely and well. One who has enrolled in the Payroll Savings Plan where he works—or, if he's not on salary, on the equally convenient, equally profitable Bond-A-Month Plan at his bank.

U. S. Savings Bonds are Government guaranteed to pay you back \$4 for every \$3 you put in—after ten years. There is no surer, wiser investment a man can make today!

Cross your own palm with plenty of silver in years to come. Start saving right away with U. S. Savings Bonds!

TO LATE TO CLASSIFY

BY RUSSELL KAY
SECRETARY OF THE FLORIDA PRESS ASSOCIATION

At long last the Marines have landed, but getting the situation "well in hand" in this case is just about the toughest chore that has ever been wished on them. It is no fault of the Marines, for this famed and honored branch of our military service has been having an even bigger fight for its very existence.

The Marines have been kicked around, scoffed at and discounted by our Washington bigwigs, bureaucrats and brass hats who have been contending that they were no longer needed. The Corps has been whittled down to a nubbin and assigned to barracks to play tiddlywinks while the smart guys went ahead with their plans for bigger and better A-Bombs, H-Bombs, Super Airplanes and Buck Rogers Rocket Ship.

"The day of the foot soldier," they said, "was passed." Future wars would be won by push buttons and controlled planes and rockets. They even went so far as to argue against the Navy, contending that it had little value beyond that of a transport service. The airplane they said would do everything; it was to be a sort of military DUZ.

Caught with their little pink pants down in Korea, the bigwigs and brass hats rushed their planes into service only to find it was another case of "too little and too late." Handicapped with foul weather and poor facilities for operation the air corps did a bang up job as far as it went but it didn't go very far.

It developed that the Russian led and trained North Koreans were able fighting men, they knew all the tricks and had invented a few more. We found that the only thing that could stop them was men, well trained, experienced fighting men equipped with tanks and guns and, yes, bayonets.

Here was a case for the United States Marines, it was their kind of war. For over a hundred years the Marines have consistently landed FIRST and have never failed to give a good account of themselves. But this time the Marines, were by-passed. The Army, with such troops as it had available, entered the fight but with untrained men and inferior equipment. The Koreans went through their lines like a dose of salts.

Finally somebody in Washington remembered the Marines; their tiddlywinks game was rudely interrupted and the few we had left and ready to go rushed to the battle front. In the meantime orders have been issued calling up the entire volunteer reserve of the Marine Corps, an order that should have been issued a month ago. Maybe we can get more of them over there in time but it doesn't look encouraging just now.

It seems we have learned another lesson and learned it the hard way. The Marines aren't obsolete. This is one branch of the service that should be maintained at full strength all the time.

I have no quarrel with any other branch of the service. We need them all. There never has been and there never will be a war where the man on foot, the man with a bayonet won't be needed. Our enemies will know this. They have maintained the largest standing army in the world and are holding it in reserve; they have trained and equipped the foot soldiers of conquered nations and use them effectively against us.

A couple of weeks ago at Coca I witnessed the launching of a rocket at the guided missile base. It was awe inspiring, and it is good to know that they are working to perfect this new type weapon. Maybe some day we can fight a remote control war, but today it is only in the experimental stage, and at the same time we were

testing this rocket doughboys were fighting a tough delaying action from the fox-holes and rice paddies of South Korea.

The chips are down—we are engaged in a hot war in Korea and a cold war at LaKe Success and we have been taking a beating in both places. It is time that all of us come to the realization that if we expect to preserve our freedom and American way of life we will have to buckle down and fight for it.

It wouldn't hurt to do a bit of first-class house cleaning here at home in cleaning out the known Communists, war profiteers and hoarders. Congress is taking steps in that direction and the FBI is on the alert, but we are making a mighty late start and it will be a tougher job because of that fact.

We are going to need unity, faith, courage and hard work on the home front just as much as we need it on the battle front. This nation has assumed leadership to halt aggression, and to enforce this policy and attain the peace we all desire calls for teamwork on the part of each and every one of us.

Personal

Mr. and Mrs. O. D. Carpenter and daughter, Carol, accompanied by Mrs. Carpenter's mother, Mrs. C. A. Shive, returned Sunday night from a vacation spent with their son-in-law and daughter, Mr. and Mrs. Vance Denton, in Port Arthur, Texas, and other relatives in Oklahoma.

Mr. and Mrs. Inman Weeks are expected to return home this week from a visit with their son-in-law and daughter, Mr. and Mrs. Edward Hamilton in El Paso, Texas, and other relatives in North Florida.

Mr. and Mrs. Lloyd Hundley and sons visited her brother and sister-in-law, Mr. and Mrs. Dennis L. Friend, in Indiantown Sunday.

Claude Padgett and sons are spending a vacation with relatives in Trenton, Fla.

Bill Culberson and his brother, Andy Culberson, have returned from Mountain City, Tenn., where they have been working in the vegetable produce deal in that area.

Rev. and Mrs. Ralph W. Todd and children spent several days this week at Mont Plymouth, Fla.

Mr. and Mrs. Clyde Alley and children are spending a two weeks vacation with their parents and other relatives in Kentucky.

Mrs. Roy Segree and son, Allan, of Indiantown visited her mother, Mrs. Bertha L. Starling, in Pahokee Sunday.

Miss Margaret Shirley is visiting her grandfather, Dr. C. H. Willoughby in Gainesville this week.

Mrs. B. W. Wood, accompanied by Mrs. George Ramey and daughter, Phoebe Ann, and Mrs. Gordon Schuetler and daughter, Jeannie, visited her son and daughter-in-law, Mr. and Mrs. J. W. Wood, in Miami Tuesday.

Mr. and Mrs. C. L. Hall had as guests the past week Mr. and Mrs. William Schuck and son, Billy, and B. E. Newton, all of Bartow; also Mr. and Mrs. John Hayes and daughter of Fort Lauderdale.

Mrs. H. C. Wolfenbarger of Norfolk, Va., is visiting her brother-in-law and sister, Mr. and Mrs. Roy Vandegrift, Sr., while awaiting a call to join her husband in Africa where he is stationed with the U. S. Army.

Mrs. Hazel Jenkins and grandson, Weldon Cardin, left Sunday for a visit with relatives in Philadelphia, Pa.

C. L. Hall, accompanied by his house guests, William Schuck and B. E. Newton, spent the weekend fishing among the Ten Thousand Islands.

Roy Vandegrift, Sr., and Roy Vandegrift, Jr., will return home this week from New York. While away they attended the National Apple Convention held recently in Washington, D. C.

Mrs. Minnie L. Hughes has returned from a visit in Cincinnati, Ohio, Hendersonville, N. C., and Madison, Fla. She was accompanied home by Mrs. W. B. Flowers who joined her at Hendersonville.

Mr. and Mrs. E. H. Walston have returned from Washington, D. C., where they visited their son, Herbert Walston, who is stationed there in the U. S. Navy.

Mr. and Mrs. William Howard and daughter, Judith Lloyd, have returned from a visit with relatives in Kentucky. Mr. Howard, a member of the Pahokee High School faculty, attended summer school at the University of Kentucky.

Mr. and Mrs. John D. Rogers had as guests over the weekend Mr. and Mrs. Frank Birdsong and Mr. and Mrs. Milton Rogers and children of Meridian, Miss., Mr. and Mrs. Perry Rogers and daughter of Miami and Mrs. A. F. Rogers of Fort Pierce.

Jimmy Schuetler has returned from a visit of several weeks with his grandmother, Mrs. Elsie Woodruff, in Boynton Beach. He was accompanied home by his sister, Jeannie, who spent the past week there.

Mr. and Mrs. John Stone and son of Stuart were called to Pahokee Saturday to be with her father, Jesse Walton, who is reported to be seriously ill at his home.

Mr. and Mrs. Audie Hooks, Jr. of Clewiston, spent Sunday in Canal Point visiting her parents, Mr. and Mrs. Latham.

Mrs. O. B. McClure has returned from a visit with her daughter, Mrs. Bob Aplegren, in Miami.

Thomas Dickson was called to Miami this week by the Draft Board for a physical examination. Mrs. H. D. Fields, Jr., and daughter, Bonnie Lee, arrived in Pahokee Sunday night for a visit with her parents, Mr. and Mrs. B. Justice.

Mrs. W. Tillman of Avon Park, sister of Mrs. B. Elliott, is a patient in St. Mary's hospital in West Palm Beach where she is to undergo an operation.

Among those enjoying a vacation weekend at the Colonnades Palm Beach Shores, were Mr. and Mrs. Curtis Chase, Mr. and Mrs. E. P. Holt, Mr. and Mrs. James W. Vann, Mr. and Mrs. F. M. Shaughnessy, Edgar Shaughnessy, Mr. and Mrs. E. D. Sims and Mrs. Sims' mother, Mrs. Mallory.

Mr. and Mrs. E. M. Peters and children of Venezuela, S. A. visited her brother and sister-in-law, Mr. and Mrs. Thomas Handley, in Pahokee the past week.

Among those attending the National Apple Convention held recently in Washington, D. C., were Roy Vandegrift, Sr., Roy Vandegrift, Jr., John A. Dulaney, H. J. Clause, R. B. Mackey, Lester Duncan and Ben Kepp.

Miss Barbara Jenkinson, daughter of Mrs. M. C. Carter of Canal Point, left recently for San Diego, Calif., for her marriage to Eugene L. McCall, son of Mr. and Mrs. J. L. McCall, Sr., of Port Mayaca, which was scheduled to be held in that city. Mr. McCall, a member of the U. S. Navy, is stationed at the San Diego Naval Base.

Mr. and Mrs. Thurmond Knight and children are spending a vacation with relatives in Hamlet, N. C.

V. C. Denton returned recently from a visit with his son and daughter-in-law, Mr. and Mrs. Vance Denton, in Port Arthur, Texas.

Mr. and Mrs. James Merrill (Miss Opal Levine) announce the arrival of a 9½ pound son at a West Palm Beach hospital on Aug. 15.

There are enough railroads in the United States to make a single track to the moon and more than halfway back again.

Annual Meeting Of Vegetable Group In Miami, Oct. 4, 5, 6

The factors of competition from both foreign and domestic sources affecting the Florida fruit and vegetable industry will be reviewed at the 7th annual convention of the Florida Fruit and Vegetable Association, meeting in Miami Beach on October 4, 5 and 6, according to LaMonte Graw, FFVA manager.

Graw said that FFVA's economists are preparing data on the past season's shipments from competing areas in this country and on imports from Cuba and Mexico. Also to be reviewed are shipments of other seasons which have been under close study by FFVA for several years.

"While the future is uncertain, if ships are diverted from transportation of Cuban products and if an anticipated shortage of refrigerator cars should cause the government to restrict their use on long hauls, Florida producers will endeavor to supply the needed fresh produce. It is a task with which the industry has been faced before, and one which it met with distinction. However, it is a task which requires the close cooperation and coordination of all persons and agencies involved."

"Production adjustment recommendations made before the Korean situation developed suggested increased acreages for cantaloupes, cauliflower, lettuce and strawberries. The same acreage as last year's was recommended for lima beans, sweet corn, green peas, winter and spring squash and tomatoes."

"Decreases were recommended for snap beans, cabbage, celery, cucumbers, eggplant, escarole, peppers, Irish potatoes, fall squash and watermelons," said Graw.

Graw pointed out that these recommendations will be carefully reviewed in the light of the existing international situation and emphasized that production of most of these commodities is already at or above World War II levels.

JeKyll-Hyde Plan Is Anticipated By State Advertising Group

TALLAHASSEE — With a billion-dollar-a-year tourist income dangling before it, Florida is shaping its national advertising program to fit the world crisis. It will not be like World War II, when criticism was leveled in some quarters. Then, it was claimed, Florida extolled its sunlit beaches, bathing beauties and the carefree life while other sectors of the nation sweated it out.

Instead, alternate promotion programs are being blueprinted by the State Advertising Commission. Which one will be used depends on which way the smoke of war blows. If the Korean situation calms down, the Commission will proceed on its course of telling the nation about Florida's advantages as a vacationland.

But if the Korean war spreads, the alternate program will go into gear. The health theme, among others, will be stressed. Americans will be told that if they must seek relaxation from the grind, Florida has more days of mild weather than any other state in the Union.

NEW EASTERN FLIGHT

Civil Aeronautics Board has given the green light to Eddie Rickenbacker's Eastern Air Lines for a brand new flight from Orlando to Tallahassee, classified as "temporary," and naming Feb. 1, 1952 as expiration date for renewal or discontinuance, dependent on patronage results.

Clewiston Inn, in the absence of a municipal swimming pool, has provided for younger children, both resident and visiting, a "pool-ette," immediately across the street from the hotel.

Thomasville Girl Is Bride Of Pahokee Man

Miss Ann Elizabeth Keyton, daughter of Mr. and Mrs. Allyn Burke Keyton of Thomasville, Ga., became the bride of Samuel Stone Lovell, son of Mr. and Mrs. David Milton Lovell of Pahokee at the St. Thomas Episcopal Church, Thomasville, on Sunday, Aug. 6, at 3 p. m., with the Rev. George Shirley officiating at the double ring ceremony.

A program of nuptial music and the traditional wedding marches were played by Mrs. Olen Dekke, organist.

The bride, given in marriage by her father, wore a street-length dress of bridal blue silk shantung with white accessories. Her hat of white Milan straw was trimmed in dainty flowers and veiling. She carried a white satin prayer book showered with fleur d'amour and stephanotis.

The bride's only attendant was Miss Caroline Gillyn of Jacksonville who wore an informal afternoon dress of aqua crepe featuring an accordion pleated skirt. Her accessories were of pink and she carried a cascade bouquet of pink asters.

Charles T. Goodroe of Jacksonville was Mr. Lovell's best man. Jimmy Keyton, cousin of the bride, and George Harper of Jacksonville were ushers.

Following the ceremony the bride's parents entertained at a reception in the parish hall of the church.

After a wedding trip in Florida Mr. and Mrs. Lovell will make their home in Jacksonville where he is employed as vocational agriculture instructor.

The bride attended schools in Jacksonville and graduated from the Thomasville High School in 1946. She received a BA degree in education at Florida State University last March and is employed at the present time as elementary school teacher at Atlantic Beach, Fla., near Jacksonville.

Mr. Lovell, a graduate of Pahokee High School, attended San Francisco Junior College in California and graduated from the University of Florida last February with a BS degree in agriculture. He was a member of the University of Florida Band, Georgia Seagle Co-operative, Alpha Tau Alpha, scholastic agricultural teachers fraternity, and Tau Kappa Kappa Epsilon, social fraternity.

FLOOD CONTROL

The big navigation and flood control projects, in which Florida is supposed to share to the extent of nearly \$12 million, are sitting on a highly dubious and shaky future, say many Washington observers. Many who have worked long and hard on securing these state appropriations, largest of which are the Central-South Florida Water Control project and the Jim Woodruff dam, fear that a recent cut by the House Appropriations Committee may be a forerunner of even worse yet to come.
